

# The Violet Accord (Healer's Covenant and Application)

## The Covenant:

This is a Guiding Covenant for members of the healer network/directory. This serves as a spiritual oath, energetic contract, and operational compass to align the community in service, integrity, and divine light.

### *Guiding Covenant of the LightEnergies Healer Network: The Violet Accord*

## A Temple of Many Flames

**United in Service • Anchored in Truth • Aligned in Light**

### Preamble

We, the Light Bearers, enter this Covenant in full remembrance of our soul missions and sacred duty. As torchbearers of divine healing and awakening, we commit to walk the path of clarity, compassion, and co-creation.

This is not a hierarchy, but a circle of flames — each soul sovereign, each light unique, each act aligned with the Great Work.

#### 1. We Serve the Light, Not the Ego

- We recognize that all healing flows through the Divine Source, not through personal power.
- We do not claim to “fix,” “save,” or “cure,” but rather to witness, empower, and awaken.
- We remain humble stewards of the gifts we carry.

#### 2. We Uphold Spiritual Integrity

- We speak only what is aligned, accurate, and attuned to the soul's path.
- We honor client boundaries, timing, consent, and readiness.
- We do not use fear, urgency, manipulation, or superiority to influence others.

#### 3. We Are Channels of Transmutation, Not Drama

- We tend to our own shadows before guiding others through theirs.
- We commit to regular personal clearing, healing, and attunement.
- When conflict arises, we address it directly, kindly, and through the lens of divine truth.

#### 4. We Operate in Energetic Cleanliness

- We maintain sacred space before, during, and after sessions.
- We do not siphon, project, or entangle energy through our work.
- We ask for energetic permission before accessing another's field or past lives.

5. We Honor Collaboration Over Competition

- We celebrate the success and visibility of our peers as extensions of the same Light.
- We do not copy or plagiarize — we honor originality and divine inspiration.
- We collaborate from abundance, not scarcity.

6. We Walk the Path of Mastery

- We strive for continual refinement of our gifts, our tools, and our presence.
- We stay open to divine correction, feedback, and evolution.
- We recognize that mastery is not control — it is harmony with Source.

7. We Anchor the Violet Flame

- We embody the flame of transmutation in thought, word, and deed.
- We call upon the Violet Ray in our work to lift, cleanse, and liberate.
- We remember that freedom is love in motion
